

# **Quality Policy & Mission Statement**

QPM-003 - REV 5 - 1.17.2024

## **Quality Policy Statement**

Titanium Processing Center, (TPC) and Aerospace Specification Metals (ASM) shall manufacture and deliver products and services that conform to our customer's requirements relative to safety, quality, and performance. This shall be accomplished through management commitment, continual risk and growth analysis, associate involvement, quality system development, corrective action, preventive action and continual improvement, in every area of our organization.

\*Note that within the context of AS9120 certification, TPC/ASM distributes only, and does not manufacture products.

## **Mission Statement**

TPC/ASM shall ensure quality and on-time delivery through utilization of the best available resources. We are committed to the complete satisfaction of our customers' needs, and to aggressively welcome the challenges of the future while earning a fair profit and our right to be among those who do not simply survive challenges, but thrive on them.

TPC/ASM shall continually improve its products and services in accordance with the AS9100 & AS9120 standard requirements and other sound business practices.
